Message

Prophet Muhamad in his passionate quote about learning told that “seek knowledge from the cradle to the grave,” and “one who leaves home in search of knowledge walks in the path of God.” In that context the concept of launching an **Anytime, Anywhere, Admission** by Dr. Babasaheb Ambedkar Open University at Gujarat is an initiative for empowering the students of minority and Tribal society and overcoming the deficit in digital literacy prevalent in the society.

I am really glad to know that **Dr. Ambedkar Open University, Gujarat** while following up the programme and process of enrollment of Minority and Tribal students is providing Government scholarship and the help through public private partnership in association with Larsen and Toubro Infotech Ltd. and ICT University of USA.

I convey my best wishes and heartiest support to this endeavor and wish every success for the launching programme being arranged at Ahmedabad, to enhance the support for the minority and Tribal students in presence of **Dr. Manoj Soni**, Vice President of University and **Janab Afzal Memon**, President of Gujarat Sarvajanik Welfare Trust, Ahmedabad.

(Narendra Modi)
